★ **109** companies triaged

★ **£5.8M** in secured grants

★ **>£22M** raised in investments

.....
“TheHill really took me from a medic to someone that really understands the structure of the NHS...”

The mentorship is really phenomenal, there are so many creative things in the programme with thinking more outside the box around people’s mental health who were doing this journey.

Because it is a really hard journey to set up a business and being a clinician at the same time”

CardMedic
2020 MAA Graduate

“Being both embedded within an NHS Trust and partnered with organisations and networks outside of the NHS, TheHill is in a unique position to develop the digital health ecosystem and bring digital technology to bear on clinical problems. We support innovators and adopters and, through them, accelerate the digital transformation of the NHS for the benefit of staff and patients.”

Megan Morys-Carter
Director of TheHill

.....
“TheHill provides a step-change in our ability to engage with innovators and is an invaluable source of innovation for the Trust, as well as developing the innovative capacity of the organisation. The community built by TheHill empowers staff, improves care and ultimately helps to digitise the NHS for the benefit of patients”

David Walliker,
Chief Digital and Partnerships Officer,
Oxford University Hospitals NHS Foundation Trust
